HOW TO USE THIS DOCUMENT

Complete as much as you can before our first call — even rough estimates are valuable. If you don't know an exact number, give us your best guess and note it with a tilde (~). Leave blank anything you truly don't have. We'll cover any gaps together on the call. Estimated completion time: 20–30 minutes.

CONFIDENTIALITY

Everything you share stays strictly between us. This information is used solely to prepare for our discovery conversation and inform any diagnostic work we do together.

01 Business Snapshot

What does your company do? (One or two sentences, no jargon needed.)

Describe your product or service and who it's for.

What industry / vertical do you operate in?

How long have you been selling this product or service?

- ☐ Less than 1 year ☐ 1–2 years ☐ 2–4 years ☐ 4+ years

Current ARR or monthly revenue run rate? *(Estimates are fine — ballpark is enough)*

e.g., ~\$800K ARR or ~\$65K/month

Where do most of your current customers come from?

- ☐ Founder / personal network ☐ Outbound prospecting ☐ Inbound / content / marketing
☐ Referrals ☐ Partnerships / channel ☐ Events / conferences
☐ Product-led (PLG / freemium) ☐ Other

What is your target customer? (Be specific — company size, role, industry, pain point)

e.g., VP of Finance at B2B SaaS companies 50–200 employees struggling with month-end close

02 Deal Economics

What is your typical ACV (Annual Contract Value) range?

- ☐ Under \$2K ☐ \$2K–\$12K ☐ \$12K–\$50K ☐ \$50K+

What is your typical sales cycle length?

- ☐ Same day ☐ 1–7 days ☐ 8–30 days
☐ 31–90 days ☐ 90+ days

What does a typical deal look like? How many stakeholders are usually involved?

e.g., Single buyer (VP), one call to close. Or: 3–4 stakeholders, 30-day eval.

Is your deal structure recurring (subscription), transactional (one-time), or both?

- ☐ Recurring / subscription ☐ Transactional / one-time ☐ Both

Pipeline & Deal Economics - fill in what you know:

Metric	Your Answer
Total open pipeline value (\$)	
Pipeline coverage ratio (pipeline ÷ quota)	
Overall win rate (all channels combined)	
Average deal size / ACV (\$)	
Average sales cycle (days from opp created to closed)	
Average discount given (%)	
Average # of stakeholders per deal	
Average ramp time for new reps (months to full productivity)	

NOTE

Don't have exact numbers? That's useful information too. Estimates are fine — just note them with a ~. If you don't track something, write "don't track." That tells us something important.

03 Where You Are Today

These questions help us understand which phase of the sales journey you're in. Answer honestly, there's no wrong answer.

Do you have any dedicated salespeople today (not counting the founder)?

- ☐ No, founder/CEO is doing all the selling ☐ Yes, 1–2 reps
☐ Yes, 3–5 reps ☐ Yes, 6+ reps

Is your sales process documented anywhere?

- ☐ No, it lives in people's heads ☐ Partially, some notes or slides
☐ Yes, informal playbook / wiki ☐ Yes, formalized playbook in use

Do you have a CRM actively in use?

- ☐ No CRM ☐ CRM exists but barely used
☐ CRM used inconsistently ☐ CRM used consistently by all

Are reps hitting quota consistently? *(Skip if no reps yet)*

- ☐ N/A - no quota set yet ☐ Most are missing (<50% attainment)
☐ Hit or miss (≈50% attainment) ☐ Most are hitting (>75% attainment)

In one sentence, what is the primary problem you're trying to solve right now?

Be direct. e.g., "We have wins but no repeatable system." Or: "Some reps hit, most don't, and I don't know why."

04 Funnel Metrics by Channel

This is the most important section. Fill in every channel you actively use. Estimates are fine. If you don't track a specific metric, leave it blank — but note it so we know. Reference the metric definitions below the table.

Channel	MonthlyVolume	ConnectRate	Set Rate	KeepRate	OppRate	CloseRate	Avg ACV (\$)
Outbound - Cold Call							
Outbound - Email							
Outbound - LinkedIn / Social							
Inbound / Marketing							
Referral / Word of Mouth							
Events / Conferences							
Partner / Channel							

Metric Definitions

Metric	Definition
Monthly Volume	Total outbound attempts (dials or sends) or inbound leads per month for this channel
Connect Rate	Outbound only — % of dials that result in a live conversation. Leave blank for email/inbound.
Set Rate	% of connects (or sends/leads) that result in a meeting being booked
Keep Rate	% of booked meetings that actually happen (showed up / didn't cancel or no-show)
Opp Rate	% of meetings held that result in a qualified opportunity being created in the pipeline
Close Rate	% of qualified opportunities that close as won
Avg ACV (\$)	Average contract value for deals sourced from this channel

QUICK EXAMPLE

Outbound Cold Call: 200 dials/month → 8% connect rate (16 connects) → 25% set rate (4 meetings booked) → 75% keep rate (3 meetings held) → 67% opp rate (2 opps created) → 50% close rate (1 deal) → \$8K ACV.

Are there any channels NOT in the table above that generate pipeline for you? Describe them.

e.g., cold DMs on Slack communities, cold outreach via industry associations, etc.

Which single channel produces the highest quality pipeline for you and why?

05 Team Structure

Skip this section if you have no dedicated sales reps yet.

Role	# of Reps	Avg Tenure(months)	Quota (\$)	% at orAbove Quota
BDR / SDR				
Account Executive (AE)				
Account Manager (AM)				
Sales Manager / Director				
RevOps / Sales Ops				
Other (specify)				

Is your motion full-cycle (AEs prospect and close) or split BDR/AE?

- ☐ Full-cycle — AEs do everything
- ☐ Split — BDRs set, AEs close
- ☐ Hybrid / evolving
- ☐ N/A — no reps yet

What does your best rep do differently from everyone else? *(Be specific if you can)*

What does your lowest-performing rep struggle with most?

What is the compensation structure for AEs? *(Base / OTE split, commission rate, accelerators)*

e.g., \$60K base / \$120K OTE, 10% of ACV, 1.5x accelerator above 100%.
